

## Establishing an Educational Cost of Attendance Budget

The cost of attendance for a student is an estimate of that student's educational expenses for the period of enrollment. When creating a cost of attendance budget, the following items are included:

- Direct costs to the college such as tuition, fees, on-campus room and board
- Indirect costs which the student may incur, such as transportation, off-campus room and board, personal costs and books.

Below find examples of cost of attendance budgets for full-time undergraduate students living on-campus, off-campus and with parents for a ten month period:
